

# I've Got Me a Woman

John Anderson

I've got me a woman, she's a pretty good woman at that  
We live with a monkey and a Chinese acrobat  
She calls me Tex and makes me wear a cowboy hat  
But I don't care 'cause she's a pretty good woman at that

I like nothin' better than to spend my nights at home  
I listen to my baby playing her slide trombone  
She talks in tongues and boy that turns me on  
With a woman like that a man need never roam

And some folks get themselves to Heaven  
Some folks stay in Tennessee  
I don't care where I'm headed  
Just as long as that woman stays with me

Nothin' in the world make me treat my woman mean  
She trims my beard, she keeps my tractor clean  
She cooks my food, she brings me turnip greens  
Yeah, I know she's the best little woman I've seen

Some folks get themselves to Heaven  
Some folks stay in Tennessee  
I don't care where I'm headed, no  
Just as long as that woman stays with me
