

# Love Comes Back Around

John Anderson

Well it's good to see you, my you're lookin' fine  
I wondered if you ever think about me  
I think about you all the time  
There was a time when we though we couldn't get along  
But now you're standing next to me  
And the feeling's comin' on strong

Love comes back around when you least expect it to  
When you're down on your love and about to give up  
It'll come back home to you  
Love comes back around when you know you've really tried  
When you're without a friend and about to give in  
It'll come back by your side  
Love comes back around

They say that time heals all wounds and leaves its little scars  
Sometimes we change our fickle minds  
That's just the way we are  
So never stop believin', a lost love can be found  
Let your hearts be open  
When love comes back around

Love comes back around when you least expect it to  
When you're down on your love and about to give up  
It'll come back home to you  
Love comes back around when you know you've really tried  
When you're without a friend and about to give in  
It'll come back by your side  
Love comes back around
