

# She Worships the Quicksand That I Walk On

John Anderson

It ain't the money 'cause I've got none  
And pushin' that old broom around the motel can't be fun  
But Lord knows she loves me for what I am  
Even though I'm just a man on shaky ground

She worships the quicksand that I walk on  
The moving earth underneath my feet  
She's always there to lift me up each time I start to sink  
And the only time she ever fell is when she fell in love with me

Now I'll do better, I'm sure I will  
I'll get out and find a job and help to pay the bill  
But this old back pain it won't go away  
But when it does I'll be there workin' say

She worships the quicksand that I walk on  
The moving earth underneath my feet  
She's always there to lift me up each time I start to sink  
And the only time she ever fell is when she fell in love with me

She worships the quicksand that I walk on  
The moving earth underneath my feet  
She's always there to lift me up each time I start to sink  
And the only time she ever fell is when she fell in love with me

She loves me just the way I am  
And that's the way I'll always be
