

# South Moon Under

John Anderson

I've got a feeling coming over me  
Being here close to you  
It's a strong feeling like I never had before  
I'm just a little bit nervous, and don't know what to do  
It may seem strange but girl I'm wantin' it more

South moon under, it's a natural wonder  
It makes lovers fall in love,  
It can make you wanna laugh or cry  
South moon under, it hits you like thunder

And girl I've got a feeling  
There's a south moon under tonight  
I've heard old folks talk about  
The moon and stars and signs  
But I never knew just how true it could be  
Then, just out of nowhere and right before my eyes  
I saw a light that made a believer out of me

South moon under, it's a natural wonder  
It makes lovers fall in love,  
It can make you wanna laugh or cry  
South moon under, it hits you like thunder

South moon under, it's a natural wonder  
It makes lovers fall in love,  
It can make you wanna laugh or cry  
South moon under, it hits you like thunder

Yeah, girl I've got a feeling  
There's south moon under tonight
