

They Spent Forever

John Anderson

She bought her wedding dress at the Good Will bargain center
His wedding suit was a faded shirt and jeans
Most folks said they'd never make it through the winter
But they made it after all it seems

They'd spent forever lovin' each other
They've got a true love deep in their hearts
They'd spent forever stayin' together
They've got a true love and they knew it from the start

He got a job workin' at the factory
She stayed home and took care of the kids
And they never had a lot, but they never did complain
They just thanked the Lord for what they had instead

And they'd spent forever lovin' each other
They've got a true love deep in their hearts
They'd spent forever stayin' together
They've got a true love and they knew it from the start

He still brings her flowers on special occasions
And Lord he wishes she was by his side
He's longing for the day when they'll be joined together
Like on the day when she became his bride

And they'd spent forever lovin' each other
They've got a true love deep in their hearts
They'd spent forever stayin' together
They've got a true love and they knew it from the start

They'd spent forever lovin' each other
They've got a true love deep in their hearts
They'd spent forever stayin' together
They've got a true love and they knew it from the start
They've got a true love and they knew it from the start
