

What Used To Turn Me On

John Anderson

I used to run with the wildest crowd spinnin' wheels and gettin'
' loud

Crazy as a loon and closin' down the bars at three
But the whiskey 'bout done me in so I don't go there again
What used to turn me on has turned on me

This livin' wild has wrecked my life and tore my whole world ap
art

These old heartaches and sad goodbyes put a big hole in my hear
t

Now I'm walkin' that straight and narrow, I'm doin' things diff
erently

What used to turn me on has turned on me

I used to hang with my gamblin' friends, I'd lose more than I w
ould mend

She was tired of my ways and told me she was goin' to leave
She took my guitar and my old hat, I never thought it would com
e to that

What used to turn me on has turned on me

This livin' wild has wrecked my life and tore my whole world ap
art

These old heartaches and sad goodbyes put a big hole in my hear
t

Now I'm walkin' that straight and narrow, I'm doin' things diff
erently

What used to turn me on has turned on me

What used to turn me on has turned on me
