

# When The Darkness Falls

John Anderson

When darkness falls around your house  
And you listen to the cold wind blow  
When you're feelin' sad and all alone  
There's somethin' I want you to know

If the world outside seems hard and gray  
And the load's a little heavy a bag  
Don't you worry, don't shed a tear  
'Cause darlin' I'll be there

When the walls are closin' in on you  
And you're tired of it all  
Don't be afraid if you need a friend  
I'll be with you when the darkness falls

In health, in sickness, for better or worse  
Until death do us part  
I'll be standing by your side  
And you'll be in my heart

When the walls are closin' in on you  
And you're tired of it all  
Don't be afraid if you need a friend  
I'll be with you when the darkness falls

When the walls are closin' in on you  
And you're tired of it all  
Don't be afraid if you need a friend  
I'll be with you when the darkness falls
