

Willie's Gone

John Anderson

Long legged Lily and wild man Wille was a-gettin' it on
Lily said, "Willie, you better get up I think the old man's com
in' home"

I heard a picking on the window and a knock on the door
I jumped in my pants before my feet hit the floor
Adios miss Lily, goodbye, Wille's gone

Scarface Dan, he's a number one he-man down at the Cadaboats
If he ever catches me with his little honey bee
He'd turn me every which a-way expect a-loose
I got to get me some gone, I got to make some tracks
But I'll finish up my job if I ever get back
Adios miss Lily, goodbye, Wille's gone

Wild man Wille he's got to move on 'cause he ain't got time to
stay
Goodbye miss Lily, it looks like rain, I'll see you on a sunny
day
The noose is out he's gonna put me in a hole
I'm scared to death I can't take it no more
Adios miss Lily, goodbye, Wille's gone
Adios miss Lily, goodbye, Wille's gone
Adios miss Lily, goodbye, Wille's gone
