

All Summer Long

John Cale

Staring at the ocean, looking out to sea
Scouting the horizon, trying to feel
If what we've been saying matter a lot
We've been at it since '

Were we wasting time?
Living here in paradise

I saw you sailing all summer long
I sat and felt the breeze
I saw you sailing all summer long
I saw you sailing all summer long
I sat and felt the breeze
I saw you sailing all summer long

Summer
We know it's gonna be there
Summer
We know it's taking its time
Summer
We know it's coming at you
Summer
And you're cursing over the wine
Over and the wine
Over the line

I saw you sailing all summer long
I sat and felt the breeze
I saw you sailing all summer long
I saw you sailing all summer long
I sat and felt the breeze
I saw you sailing all summer long

I saw you sailing all summer long
I sat and felt the breeze
I saw you sailing all summer long
I saw you sailing all summer long
I sat and felt the breeze
I saw you sailing all summer long

I saw you sailing all summer long
I sat and felt the breeze
I saw you sailing all summer long
