

Wings And A Wind

John Foxx

Fires
Only on the horizon
Waking
From sailing through my sleep
Turning the messages round
I was turning the messages round
And I found
Clothes and a freeway
Tickets for one day
Clues to an ocean
Rages in silence we've never suspected
We've never suspected
Chorus:
Oh look at the wonderful view
Wings and a wind and your touch by my side
Wings and a wind and your touch by my side
Weathers are bridges
Songs over oceans
Movements in silence we never suspected
Time and meander
Snap at the tension
Open my hands and the light still here inside
For always I've wanted
For always still looking
For always we'll always leave this way
We'll always leave this way
We'll always leave this way
We'll always leave this way
(Chorus)
Your touch
Your touch by my side
Your touch by my side
Shuffling of the kids in the long line
Invisible families locked out at midnight
Turning the messages round
I was turning the messages round
(Chorus)
Wings and a wind and your touch by my side
Wings and a wind and your touch by my side
Your touch by my side
Oh look at the view
The wonderful view
Oh look at the view
The wonderful view
Oh look at the view
The wonderful view
Oh look at the view
The wonderful view
Oh look at the view
The wonderful view
Oh look at the view
The wonderful view
Oh look at the view
The wonderful view
Shuffling of the kids in the long line
The invisible families locked out at midnight
Turning the message round
I was turning the message round
Weathers are bridges

Songs over oceans
Movements in silence we never suspected
