

Down Child

John Lee Hooker

Listen down child, please take a fool's advice
Listen down child, please take a fool's advice
Don't ever let no one woman, Man misuse you twice

Every time she smiles, says she don't love no one but you
Everytime she smiles, says she don't love no one but you
You better watch out buddy boy
Little girl love to drop a chunk on you

I tried so hard to not even think about my past life
I tried so hard even think about my past life
Because I don't want to ever ever make a mistake in life

Baby, I and you could be so happy
We can be so lovin' tonight
From now on darling, we can be so happy
Be so loving from now on
Because if I ever make a mistake in life
I know I'd ruin my happy home
