

## Dreamin' Blues

John Lee Hooker

My baby left me this morning  
People just around four o'clock  
My baby left me this morning  
People just around four o'clock  
She left me dreamin' dreamin'  
People then I woke up crying

Me and my baby don't get along so well  
We don't do a doggone thing but fuss and fight all  
Most all the time, she left me to dream  
People dream most all the time

Ever since my baby left me

I don't do a doggone thing but dream  
Yes my nightmares are killing me now

You know I lay down dreamin'  
People God knows that I wake up crying

Yes since my baby's been gone  
People I just can't eat a bite  
I'm gonna get up in the morning  
Going down that lonesome road  
I don't find my baby  
People I won't be back no more
