

Half a Stranger

John Lee Hooker

I'm a stranger babe
I just got in your town
I'm a stranger babe
I just got in your town

Don't drive me from your door, baby
'Cause I done no, nobody wrong

It's cold outside babe
I don't have no place to go
It's cold outside babe
I have no place to go

Take me in, take me in, baby
Let me stay all night with you

I'm a stranger baby
And I just got of the train
I'm a stranger baby
I just got of the train

I don't know no nobody in this town baby
Honey child please take me in

Little rain keep falling baby
And my clothes getting mighty wet
