

# I'm a Stranger

John Lee Hooker

I'm a stranger, babe  
I just got in your town  
I'm a stranger, babe  
I just got in your town

Don't drive me from your door, baby  
'Cause I don't know nobody 'round

It's cold outside, baby  
I don't have no place to go  
It's cold outside, babe  
Have no place to go

Take me in, take me in, baby

Let me stay all night with you

I'm a stranger, baby  
And I just got off the train  
I'm a stranger, baby  
I just got off the train

I don't know nobody in this town, baby  
Honey child, please take me in

The rain keep fallin', baby  
And my clothes gettin' mighty wet
