

# Just Me and My Telephone

John Lee Hooker

Yes ain't got nobody got nobody  
Just me and my telephone

Yes ain't got nobody now people  
Just me and my telephone

Nobody talk to me and keep me company  
When my baby she was here with me my telephone kept on ringing  
all the time but now since she left me my telephone don't never  
ring  
That's why I know now people there was something going on wrong  
, yes it was

That's why I know that's why know people I don't get no telepho  
ne calls

I'm going downtown this morning to ask the operator whats wrong  
with my telephone  
It don't never ring  
It must be out of order  
She said no said no  
Man your telphone ain't dead  
That's why know that's why know something was going on wrong

Now my baby done come back home my telphone ring all the time  
My baby done come back home my telphone ring all the time  
That's why know that's why know I didn't have no friends
