

No Place Like Home

John Legend

Baby, I can't wait for late December
The smell of cinnamon and pine
But we'll be taking out the Christmas timber
And hanging up the fairy lights
We can have a party, you can sing the carols
We're not going out at all
I got everything I need right here
There's no one else I need to call

'Cause there's no, no place like home at Christmastime
Let the snow fall down, we're snuggled up inside
We got love with us, it's a good Christmas
'Cause there's no, no place like home at Christmastime

La la la, la la la la
La la la, la la la la

Cozy up right by the fireplace
And watch our favorite movies play
Cooking up a feast for kings and queens
Our castle is our sacred place
And we can have a party, dancing to the carols
We're not going out at all
I got everything I need right here
I know we're gonna have a ball

'Cause there's no, no place like home at Christmastime
Let the snow fall down, we're snuggled up inside
We got love with us, it's a good Christmas
'Cause there's no, no place like home at Christmastime

Make a Christmas vow
All we need is now
All we have is us, we're more than enough
Now we made this house a home
A beautiful world of our own
Do this every year, we're not leaving here

'Cause there's no, no place like home at Christmastime
Let the snow fall down, we're snuggled up inside
We got love with us, it's a good Christmas
'Cause there's no, no place like home at Christmastime

Oh, no place like home at Christmastime
Yeah, no place like home at Christmastime
Sing it with me, y'all, come on
Hey, no place like home at Christmastime
No place like home at Christmastime

Oh baby, feels good to be home
Feels good to be home, yeah
There's no place like home
There's no place like home
Cooking meals, baby, yeah, ooh
