

Can you just stay through the night?
Turn down the bed and the blinds
Before your turn around
Can you just stay through the night?
Let me breathe you in 'til gravity bends
And we fall through the hole in the light
Make this our kingdom
Somewhere where good love conquers and not divide

Cause I may not know a lot of things but
I feel it in my chest
Know I won't let the blue flame die
We can't lose hope just yet
'Cause it's once, just once in a lifetime
And we're scared to love but it's alright
I may not know a lot of things but
I know that we're surefire, yeah
Know that we're surefire, yeah

Can't keep this bed warm on the left side
When something is cold as a goodbye
Why don't you turn around?
Ignore all that shit from the outside
The world is a nightmare
Wake up and stay here
Let me be on your side
We'll make this our kingdom
Somewhere where good love conquers and not divide

And oh my, oh my, oh my, oh my God
I'm so, I'm so, I'm so tired of fighting
Let go, give in, let go and give up, oh

I may not know a lot of things but
I feel it in my chest
Know I won't let the blue flame die
We can't lose hope just yet
'Cause it's once, just once in a lifetime
And we're scared to love but it's alright
I may not know a lot of things but
I know that we're surefire
Know that we're surefire

And oh my, oh my, oh my, oh my God
I'm so, I'm so, I'm so tired of fighting
Let go, give in, let go and give up, oh

I may not know a lot of things but
I feel it in my chest
If we just let the blue flame die
The devil wins this bet
Oh it's once, just once in a lifetime
And you're scared to love but it's alright
I may not know a lot of things but
I know that we're surefire
Know that we're surefire
