

Cousin John

John Mark McMillan

In the belly of your mother
Did you know me back then
In the darkness, tell me brother
Did you leap when you felt me

Cousin John
Keep your head about you
Cousin John
Keep your head up, keep your head on

In your cold room do you suffer
Are you tide up in knots

Do you wait or hope for another
Am I all that you've got

Cousin John
Keep your head about you
Cousin John
Keep your head up, keep your head on

Don't go losing your head
Don't go losing your head
Don't go losing your head
Don't go losing your head
