

# Make You Move

John Mark McMillan

Would you save me for a song  
If the music was where we'd meet  
Would you save another dance for me  
Would you save my soul  
For the chance that I could know you now

I just want touch you  
I just want to make you move  
I can't get over you  
The way you slide into the room

Would you save me for a song  
If I didn't have the words to say  
Would you listen to me anyway  
Would you help me out  
For the chance that I could know you now  
I would bury my pride in the ground  
If I'm running then I don't know how  
I'm ever going to get back home

I just want touch you  
I just want to make you move  
I can't get over you  
The way you slide into the room

I just want touch you  
I just want to make you move  
I can't get over you  
The way you slide into the room

I just want touch you  
I just want touch you  
I just want touch you  
I just want to make you move  
I can't get over you  
The way you slide into the room

I just want touch you  
I just want to make you move  
I can't get over you  
The way you slide into the room

I just want touch you  
I just want to make you move  
I can't get over you  
The way you slide into the room

I just want touch you  
I just want to make you move  
I can't get over you  
The way you slide into the room
