

# Dream With Me

John Mayall

WRITTEN BY: John Mayall

The clock in the bedroom is chiming, measuring time  
The woman I love is beside me, everthing's fine  
Dream with me 'till the night is through  
We will leave our bodies, I wonder where we're going to

Sailing a ship in the darkness, we're in the sea  
Images getting distorted, where can you be  
Dream with me 'till the night is through  
We will leave our bodies, I wonder where we're going to

Dreamed I was climbing a mountain, up to the sky  
Dropped to the top and discovered, knew how to fly  
Dream with me 'till the night is through  
We will leave our bodies, I wonder where we're going to

If I could only remember all of my dreams  
I'd have a story to tell, all that I've seen  
Dream with me 'till the night is through  
We will leave our bodies, I wonder where we're going to
