

Why Worry

John Mayall

Got to see all those headlines
Same old depressing news
Trouble surround us so I play my blues
Tell me why should I worry
All the world is crazed
We can take it, yes we do don't we
I'm so amazed
So I go to the ocean
Give me time to think
No time for troubles
Give me one more drink
I'm gonna leave for the ark
Do the best I can
Shake out my troubles
I'm not a worrying man
(Believe that stuff about gas gettin' cheaper)
(You know the price will be up before you get up in the morning
)
(Now 'bout this, do you think we're gonna get them horses back
to the ranch.....)
