Beer and Bones

John Michael Montgomery

I ain't nothin' but beer and bones Honey since I lost you I ain't ate a bite Since the night That you said we're through I walked to that jukebox to play A few sad country songs I heard someone say Hey that old boy Ain't nothin' but beer and bones

I got to work this morning Early this afternoon Yeah my boss man nudged me Said son I need to talk to you You used to make me money But lately I been taking a loss Well he smelled my breath Gave me what was left Of the day off

I ain't nothin' but beer and bones Honey since I lost you I ain't ate a bite Since the night That you said we're through I walked to that jukebox to play A few sad country songs I heard someone say Hey that old boy Ain't nothin' but beer and bones

Well I wish I could go home And rest my weary head But I know I'll just stay here And have another beer instead That little waitress asked me Honey could you use some help I said I thank you miss I'll have to get through this By my dang self

I ain't nothin' but beer and bones Honey since I lost you I ain't ate a bite Since the night That you said we're through I walked to that jukebox to play A few sad country songs I heard someone say Hey that old boy Ain't nothin' but beer and bones I heard someone say Hey that old boy Ain't nothin' but beer and bones
