

## Cloud 8

John Michael Montgomery

I hear 'em laughing on cloud 9  
In a world so happy just above mine  
No one's leaving like you left me  
They got each other got all they need, but

Here on cloud 8  
A lotta nothing's going on  
I'm just drifting day to day  
Out here on my own  
While up on cloud 9  
I hear 'em party all the time  
They don't hear my heart break  
Down here on cloud 8

We almost made it up where they are  
But losing your love  
Brought me down hard  
Now I'm just hanging, just getting by  
Where expectations aren't that high, but

Here on cloud 8  
A lotta nothing's going on  
I'm just drifting day to day  
Out here on my own  
While up on cloud 9  
I hear 'em party all the time  
They don't hear my heart break  
Down here on cloud 8

While up on cloud 9  
I hear 'em party all the time  
They don't hear my heart break  
Down here on cloud 8  
They don't hear my heart break  
Down here on cloud 8
