

## Long as I Live

John Michael Montgomery

The world's been spinning 'round since time began  
An' when it stops, it's out of my hands  
So I could swear forever for all it's worth  
Or give you every day I have on Earth

Long as I live  
Long as I breathe  
With every heartbeat  
I'll need you near me  
I won't leave you behind  
'Til the Lord says it's time to go with him  
I'm yours long as I live

No matter if there's mountains you can't move  
Or harder times then you thought you'd go through  
And the weight of your world's too much to bear  
Just remember I'll always be there

Long as I live  
Long as I breathe  
With every heartbeat  
I'll need you near me  
I won't leave you behind  
'Til the Lord says it's time to go with him  
I'm yours long as I live

The moon and stars aren't mine to give  
Neither is eternity  
But I'll give you a promise tonight  
That I can keep

Long as I live  
Long as I breathe  
With every heartbeat  
I'll need you near me  
I won't leave you behind  
'Til the Lord says it's time to go with him  
I'm yours long as I live  
I'm yours long as I live
