

# She Don't Need a Band to Dance

John Michael Montgomery

She's not much for thrills and says things with fancy frills  
Don't turn her on  
She seems so content workin' hard  
To make our house a home  
She's steady as a rock standin' by me  
Even when I don't succeed  
Lord I wish I could afford  
The things she swears, she don't really need

She don't need a band to dance  
It don't take wings for her to fly  
Our love's gonna grow if there ain't much do-si-do  
It's still gonna be alright  
We make such pretty music  
That you can tell at just a glance  
When I take the notion, she seconds that emotion  
She don't need a band to dance

She didn't say a thing  
We had to pawn the ring, to pay the rent  
What I make in overtime  
Stacked against the bills, don't make a dent  
Just when I think I'll let her down  
And failed to be the man I oughta be  
She still sees the bright side  
Of everythin' includin' me

She don't need a band to dance  
It don't take wings for her to fly  
Our love's gonna grow if there ain't much do-si-do  
It's still gonna be alright  
We make such pretty music  
That you can tell at just a glance  
When I take the notion, she seconds that emotion  
She don't need a band to dance

She don't need a band to dance  
It don't take wings for her to fly  
Our love's gonna grow if there ain't much do-si-do
