

I Be Like

John P. Kee

I had a conversation with myself, I had to be honest
It's time to face reality, and I stumble
When I spoke honestly, you never ever fail me
Even when I stumble, that's when you tell me

(I be like) I just can't do this
(I be like) Am tired of this fighting
(I be like) am angry and bitter
(You be like) you are not a quitter
(I be like) I don't wanna be bothered
(And you be like) Get out of my face
(And I be like) I'm getting up, getting up
(You be like) And you said, I didn't make it that way

When my trials find me, i was all alone (I was by myself)
All of the mistakes i made, some I never own
When I felt weak like Timothy, you were my remedy
Stubborn, hands on my ears, I could still clearly hear

(I be like) I just can't do this
(I be like) Am tired of this fighting
(And I be like) Said am angry and bitter
(You be like) you are not a quitter
(And I be like) I don't wanna do this
(And I be like) let me go I have sin
(And I be like) I'm about to give in
(You be like) But I am your strength

(Ooh, oooh, oh...ooh)
You will never leave me, nor will you forsake me
No, no, no, no, no

(Ooh, oooh, oh...ooh)
When we were rebellious, you never fail us

When we got delivered, from out of Egypt
Pharaoh couldn't find us, he could not see us (he could not see)
Should have been eleven days, but we kept the planned and
Nothing was going our way
(And We be like) I Am tired of this madness
(We be like) We running out of food
(And we be like) Why did you free us?
(And we be like) Cause I make a way for you
(You be like) I lost my job
(You be like) Can't take it no more
(And we be like) when you have scars
(And we be like) Am opening up your door

(And I be like) I want to be happy
(I be like) I really need a friend
(And I be like) I want somebody to love me
(You be like) I love you to the end
(And you be like) I don't know if I could trust you
(I be like) I don't know if you will bring me through
(And I i be like) I don't know who to turn to
(You be like) I'd do it again for you

(I be like) No, no, no
(And I be like) you never tell me
(And i be like) No, no, no
(You be like) you never tell me
(And I be like)
(And I be like)
