

# Our Love Will Last

John P. Kee

Our Love will last  
Singing our love, yes  
Our Love will last  
Matters not, the rough times, nor the tough times  
It will last

It took so long to find your glorious, smile  
Now the love we share has made it, all worthwhile  
Your love to me, is like a constant valentine  
And for the rest of our lives, will you be mine  
Will you

Our Love will last  
Singing our love, yes  
Our Love will last  
Matters not, the rough times, nor the tough times  
It will last

I asked you for your hand and you said, Yes  
(Will you marry me?)  
The thought of love and life with you, brings happiness  
Have all the joy of the thoughts, you were created just for me  
From the day of your conception, you became my destiny

Now, If we ever were sorry  
(We will make it through the day)  
Girl don't you lose your faith in me

(We will make it through that too)  
My heart I lay down on that thought  
(We can make it through the day)  
Cause our love can beat the odds  
(We can make it through that too)  
Talk about love yes

Our Love will last Matters not, the rough times, nor the tough times  
It will last

And we will only do it, gratefully  
You're the part of me that gives my life, identity  
To histories we bring, the presence and the past  
As we vow to stay together, together it will last  
It will

Our Love will last Matters not, the rough times, nor the tough times  
It will last

Through the test of time, we will stay together  
Knowing our love will last forever  
It'll last, it'll last I can't make it now, can't make it now  
Let's stay together, forever
