

No Name Girl

John Prine

I got a girl that ain't got no home
She ain't very fat just skin and bones
She don't cast no shadow because she's so thin
Never knows where she going but she knows were she's been
She Never knows where she going but she knows were she's been

The girl I love ain't got no name
But I love her just the same
She's a little peculiar but it ain't no sin
She never know where she going but know were she's been
She never knows where she going but she knows were she's been
Never know where she going but she knows were she's been

She's six feet tall and got long black hair
Runs around in her sack dress but I don't care
She got great big feet with size number 10
She never know where she going but know were she's been
She never know where she going but know were she's been

The girl I love ain't got no name
But I love her just the same
She's a little peculiar but it ain't no sin
She never know where she going but know were she's been
She never knows where she going but she knows were she's been
She never know where she going but know were she's been
She never knows where she going but she knows were she's been
She never know where she going but know were she's been
She never know where she going
She never knows where she going
She never know where she going
She never knows where she going
She never know where she going now
But she know were she's been Ugh...
She never know where she going
Never know where she going
But I know were she's been.
