

# Headlong

John Smith

When I'm low down  
And fit to the crack (?)  
Wake up staring wildy into the black  
Show me kindness  
Show me kindness

I can't say for certain I have been  
Worth all the trouble that she has seen  
Still there's kindness  
Show me kindness

Head on, head on to whenever we meet running  
Headlong, headlong into you and to me  
No longer unfounded  
Headlong you're bound to me

When we don't know where our home will be  
I look for shelter in your company  
Show me goodness  
She gives me goodness

Head on, head on to whenever we meet running

Headlong, headlong into you and to me  
No longer unfounded  
Headlong you're bound to me

I don't know how much more I can take  
Never have I gone to the point on which I break  
But there's one thing I'm sure of  
Headlong we're bound

Head on, head on to whenever we meet running  
Headlong, headlong into you and to me  
No longer unfounded  
Headlong you're bound to me

I'm running headlong, headlong  
You're running headlong, headlong  
We're running headlong, headlong
