

Living in Disgrace

John Smith

She is in her prime
Know I am a fool
I will toe the line
Obey her rules

Perhaps I'm past my best
Maybe she's too good
But I can lose myself
And be understood

We won't have time to waste
Sell everything we own
Living in disgrace
Beats living alone

I'm sure we've all done things
That we would soon forget
But I want her to live
Without regret

There used to come a time

When things would twist and break
So now I give it all
For her to take

We won't have time to waste
Sell everything we own
Living in disgrace
Beats living alone

We won't have time to waste
Sell everything we own
Living in disgrace
Beats living alone

I will give it all
I will give it all
I will give it all
Honey, I will give it all
I will give it all
