

# Something Terrible

John Smith

Paroles de la chanson Something Terrible :

It hurts me man, it cuts me like a knife  
See when it's in, it turns and pains me more  
I pull it out, it stays right on my mind  
'Cause I love something terrible  
It kills me man, it hits me like a train  
And I hear her moan, when I'm fixing up to runaway again  
I can't climb home, my legs are good as gone

'Cause I love something horrible  
I love something terrible  
It f\*cks me man, it f\*cks me in the head  
And when my sentences just dissipate these things  
I should have never said  
I'll try again, I hope that she's okay  
'Cause I love something terrible  
I love something horrible
