

# Ambition

John Vanderslice

Forget about suzanne  
She's with some other man  
Don't worry about your boy  
He's got a computer

Forget about the role  
It went to some other bloke  
So what?  
You'll never meet (never meet) sharon stone

You need to lose ...  
You need to lose ...  
Ambition...  
Ambition...

Open up your mouth  
We'll watch the dropper empty out  
I made it myself  
I call it sexy sadie

Walk down the street  
Where pine and heather meet  
And fluttering birds  
Are stronger than words

You need to lose ...  
You need to lose ...  
Ambition...  
Ambition...
