

# You So&so

John Wesley Harding

I'm gonna fill me full of coffee

Just to drown the nicotine

I'll do a slow striptease

Then wash my body clean

I'm gonna go to bed too early

Just to keep me still

Then I'll lie there quiet

Try to write my will

Then I'll dream that I am with you

Oh to hide inside your hair

I'll be so quiet that

You won't know I'm there

Visit me tonight

Come like dust under the door

Here's a key

And you know what it's for

But, oh

Do you know

I love you so

You so&so?

I never took a breath before

I never wrote a song

My body is in trouble

I've been out of it so long

But I want to be inside right now

And only you know when

Just one kiss would bring me back

Again

But oh

Do you know

I love you so

You so&so
