

I Believe In You

John Wetton

There comes a time
When all you have
Can be taken from you,
And all your faith can dissolve
Into space in no time, but
I believe in you

When I look back at all the
Mountains we had to climb and
Rivers to cross which were
Just way too wide to view,
I believe in you

And now we still have the
best of our lives.....

As years unfold, then I know
There will be no other love
In my life, I commit and you know it's true
I believe in you
