

Fools Like Me

Johnny Burnette

One in a while there comes a chance
For boys & girls to share romance
I'm not deaf, I was too blind to see
Oh please have mercy on fools like me

My baby was what we've all dreamed of
Before did to me with all her love
I walked the shoes right off my feet
Oh please have mercy on fools like me

(x2):

Why did I leave her alone to stay
& go on back to my rough & rowdy ways?
If I could see her, here's what I'd say:
"I miss you, baby, in so many ways"
My love forever she would be
Oh please have mercy on fools like me
