

# Don't Use My Heart for a Stepping Stone

Johnny Horton

Don't use my heart for a stepping stone to someone else's arms  
Cause darling now I love you so just say you love me to  
My fondest dreams depend on you to make my life complete  
My love for you will never die no matter what you do

The world will go on living dear but no one else will do  
So say that we can start anew cause darling I love you  
Don't use my heart for a stepping stone to someone else's arms  
Cause darling now I love you so my heart belongs to you
