

## Say Demesne

Johnny Marr

We were crawling out of step ground till we walked  
Secret for a while, the blood's okay so we fall  
Still my car is so on sell cause you can say to me  
Let me get you, they get what they want

But you're in for love, you're in for love  
And you will find love  
You're in for love, you'll still find love  
But you're in for love and you will find love

You're forced, drunk and your memory's stuck  
Crashing into to go back home you forgot  
Feel no good, they're not there, lost and you're lost  
Take down into where she opens your heart

But you're in for love, you're in for love  
And you will find love  
You're in for love, you'll still find love  
But you're in for love and you will find love  
You're in for love and you will find love
