

# Tonight

Johnny Mathis

City looks bright tonight  
Dream and thrills and  
Variety is the sweet taste of life  
A chance to trip the light  
There's a feeling in the air  
Amongst the people, yeah I swear  
All majestic in the light  
This fantastic life  
Should be revealed tonight

Tonight, tonight, tonight  
If you've ever been alone  
Find some love in the night  
well, tonight, yea tonight, tonight  
If you've ever lost your life  
Find some love in the night

Black neon hangover in the morning  
But i'm still smilin  
Just a small price to pay  
To wash my tears away  
And I know I'm here to stay

Tonight, tonight, tonight  
If you've ever been alone  
Find some love in the night  
well, tonight, yea tonight, tonight  
If you've ever lost your life  
Find some love in the night

If you're going down  
Or if you're going around again  
You better listen up  
If you're going down  
Or if you're coming around again  
You better listen

Tonight, tonight, tonight  
If you've ever been alone  
Find some love in the night  
well, tonight, yea tonight, tonight  
If you've ever lost your life  
Find some love in the night
