

# I Never Got Over You

Johnny Paycheck

i couldn't keep my mind on all the work i had to do today  
your memories kept on clouding up my mind getting in my way  
next they'll up and fire me and i'll be wondering what i'm gonn  
a do  
the only thing that i can say that makes me act and feel this w  
ay is  
i never no i never got over you

i still see your dark eyes  
almost everywhere i turn  
i keep standing on the bridges  
i thought i had burned  
i can still feel you near me  
in everything i try to do  
and the only thing that i can say that makes me act and feel th  
is way is  
i never lord i never got over you

old memories have the damndest way of showing up at the most un  
usual time  
they can walk right through the darkest part of your mind and t  
urn on every light  
or take a perfect crystal day and turn it into a misty shade of  
blue  
and the only thing that i can say that makes me act and feel th  
is way is  
i never never got over you

i still see your dark eyes  
almost everywhere i turn  
i keep standing on the bridges  
i thought i had burned

i can still feel you near me  
in everything i try to do  
and the only thing that i can say that makes me act and feel th  
is way is  
i never lord i never got over you  
yes the only thing that i can say that makes me act and feel th  
is way is  
i never honey i never got over you
