

It Takes A Woman's Love

Johnny Paycheck

For a while my life was filled with darkness
Till I felt the hand of love on me
You reached out and touched me with your sweetness
You turned your love light on and let me see

Everyone is looking for affection
And I was no exception on the rule
Without love a man has no direction
It always takes a woman's love to make his dreams come true

Yes it took a woman's love to change me
When I faced my darkest hour you let the sun shine through
Your sweet love has somehow rearranged me
And I don't wanna spend my life with anyone but you

Yes it took a woman's love to change me...
No I don't wanna spend my life with anyone but you
Yeah I don't wanna spend my life with anyone but you
No I don't wanna spend my life with anyone but you
