

Life Can Be Beautiful

Johnny Paycheck

Every day I say good morning to love
Kiss the woman sharin' my life with me
She's the happiness my dreams are made of
Love can be beautiful the love's all you need

Take her tear and turn it inside down
Take her frown and turn it upside down
To understand what I'm saying about
Take her sad song and turn it around

Shake her hand and make yourself for free
Say hello to someone you don't know
When it rains let the sun shine in
Then you've got yourself your own rainbow

Every day I say good morning to love...
Every day I say good morning to love...
Every day I say good morning to love...
Every day I say good morning to love every day I say good morni
ng to love
Every day I say good morning to love every day I say good morni
ng to love
