

## My Part of Forever

Johnny Paycheck

I can't take your hurt and wish it away  
Or condemn a love you knew yesterday  
I can't be the past you want to relive  
My part of forever is all I can give

I can't be a part of some other time  
Or free the memories that's chained to your heart  
I can't take his dreams and make them live  
My part of forever is all I can give

All I can give is the love you see  
It's all that I have that belongs to me

I was not the cause of yesterday's rain  
I never said the words that brought on the pain  
The life you had with him is not mine to live  
My part of forever is all I can give  
My part of forever is all I can give
