

# She's Everything to Me

Johnny Paycheck

Her name is like a prayer when I'm in need  
She gives me love that satisfies and always stands by me  
She's the guiding light that brings me home  
She smooths out the road of life that I travel on

And her sweet love is everything to me can't you see  
She brings daylight to the darkness of my world  
Without her love to guide me there's no tellin' what I'd be  
Her precious love is everything to me

She's my woman she lets me know her love won't end  
She's everything I'll ever need she's my lover she's my friends  
It takes her love to make my love complete  
She's the shrine of worship she's everything to me

Her sweet love is everything to me can't you see...  
Yes her sweet love is everything to me can't you see...
