

# Somebody Loves Me

Johnny Paycheck

Pardon me if I seem a little different  
But I'm a walking with my head up in the clouds  
I'm in love so sadness keep your distance  
I'm looking at the happy side of town  
I feel good now that things are like they should be  
I'm happy as I always knew I would be

Somebody loves me, somebody loves me  
Somebody loves me

There's no words to describe the situation  
For who could write this feeling in my heart  
This is love nothing like infatuation  
There's a way to tell the two of them apart  
Now that love has become my greatest treasure  
Everyday my life is filled with pleasure

Somebody loves me, somebody loves me  
Somebody loves me
