

We've All Gone Crazy

Johnny Paycheck

Well I think this time we've all gone crazy
I think this time we really lost our minds
Well I think this time we've all gone crazy
And ain't it crazy how we lost our minds

Set us up another round and make it a double
Don't ask us no questions like where our wives are tonight
'Cause me and the boys we'll find us some sweet things
We know it's all wrong but it feels so right

I think this time we've all gone crazy

Well I know I'll never find another woman like the one I got at
home
Joe you got a good wife too she's never done you no wrong
You take Kathy why she's the best thing to ever come your way B
ill
Well I guess we're all fools 'cause here we are we're riskin' '
em off
For a cheap one night thrill

I think this time we've all gone crazy
Yes ain't it crazy how we lost our minds
