

Just Another Girl

Johnny Thunders

Well I'm talking
I'm talking to you
All your girlfriends
they fit in my silver, my silver spoon

Because you're just another girl
that's what you are
You're just another girl
pretty but not too smart, not smarter than me

Well you know, yeah
I know You

Well you're just another girl,
that's what you are
You're just another girl
pretty but not too smart, not smarter than me
