

# Addiction

Joi Cardwell

You got me thinking like a fiend  
You're an addiction  
I know you're dangerous  
But still there's that attraction  
Won't you leave me alone you know  
We both been down this road before

When we're alone  
It's an obsession  
I'm living without discretion  
Like a child in a candy store  
I'm leaving wanting more

Addiction  
Stay aware from here  
I can't get away from you  
Don't know if I want to  
Addiction  
Get away from here  
Can't get away from you  
Don't know if I want to

You got me  
In a state of agitation  
Is this what you call elation?  
Put me in some  
Tricky situations  
So I don't know  
When we're alone  
It's an obsession  
I'm living without discretion  
Like a child in a candy store  
I'm leaving wanting more

Addiction  
Stay aware from here  
I can't get away from you  
Don't know if I want to  
Addiction  
Get away from here  
Can't get away from you  
Don't know if I want to.  
Addiction  
You're an  
Addiction.
