

Let It Ride

Joi Cardwell

Let it go
When there's nothing left to hold on
Let it go
Let it ride

Left all alone
Inside my thoughts well
Bare to the bone cold
Life on the run from myself
No one to blame
Work undone

Tell me what u want from me
Am I too close to reality
Is there more than I can see
Am I right
Is it all just make believe
Is it just what I perceive
Won't let it get the best of me
I'll let it ride

Let it ride yeah
Let it ride
Let it go
Let it ride

Wanting to know
Do mountains grow
And when do streets come alive
When these days are gone
And Never more
Will time reveal all lies

Tell me what u want from me
Am I too close to reality
Is there more than I can see
Am I right?
Is it all just make believe
Is it just what I perceive
Won't let it get the best of me
I'll let it ride

I'll let it ride
Let it ride
I'll let it ride
Let it ride Yeah
You got to let it go now
Let it ride

Let it go
When there's nothing left to hold on
Let it go
Let it ride
Let it ride
Keep Hope alive
If just inside
Let it go

Let it ride
