

# My First Christmas With You

Joi Cardwell

We got some candlelight  
And my spirits bright  
Cause I got some time with you  
I can't wait to see your eyes  
When you open my surprise  
A special gift from me to you

It's the time of year  
We need love and cheer  
Spread some joy and happiness  
To every girl and boy  
You make me wanna sing  
About good feelings  
That you bring  
And every year we'll have more

But this time  
It's my first Christmas with you  
Forever in my heart  
It's my first Christmas with you  
It my very first Christmas

Let's sit by the fire now  
And you'll show me how  
To dress up that old tree  
We'll stay up all night long  
Dancing to our favorite songs  
And singing  
Simple melodies

It's the time of year  
We need love and cheer  
Spread some joy and happiness  
To every girl and boy  
You make me wanna sing  
About good feelings  
That you bring  
And every year we'll have more

But this time  
It's my first Christmas with you  
Forever in my heart  
It's my first Christmas with you  
It's my very first Christmas

Let's sit by the fire now  
And you'll show me how  
To dress up that old tree  
We'll stay up all night long  
Dancing to our favorite songs  
And singing  
Simple melodies

It's the time of year  
We need love and cheer  
Spread some joy and happiness  
To every girl and boy

You make me wanna sing  
About good feelings  
That you bring  
And every year we'll have more

It's my first Christmas with you  
Forever in my heart  
It's my first Christmas with you  
It's my very first Christmas  
With you
