

Space Girl

Joker

We all want to see the world from a distance,
Can you trust our existance
When your there,
Where there's no air?
Can you really see what I'm saying?
There's no gauranteeing
You will learn,
When you return.

I can see what you wanna be
Another You, Another Me,
Something there when you're gone.
I can see there's life beyond the stars.

(Chorus)

Woh Yeah! I'll see that you are on that same road again.
Yeah! And I'll see that road will take you back home again.
We all want to see you do something
With your life
Something Good, Something new
With what you wanna do
I can see what you wanna be
Another You, Another Me
Something there when you're gone,
I can see there's life beyond the stars.

(Chorus)

I'll go with you,
I'll let you see,
There's nothing there for eternity.
There we will find,
It's in your mind,
All this talk of what you believe.

(Chorus)

(Chorus)

To Fade.....
